The committee of arrangements having the matter in charge have issued the following circular:—

The Knights of Pythias hall, advertised to be given on the 15th of December, at Okolona, was postponed on account of the inclemency of the weather. The committee in charge have concluded to give said hall on Tuesday Eve, December 28th, at Melver Hall. They hope the public will appreciate their attempt to furnish amusement during the Christmas holidays, and accept a liberal patronage. The committee is determined to make it an enjoyable affair, and will spare no pains or expense to secure success.

We learn that a family named Riding, who lived in the fork of the Tombigbee river, about four miles from Johnson's mill, was brutally murdered, and the house then set fire and burned down, containing their bodies. The perpetrators of the heinous deed have not been discovered, as far as we learn, though we have not been able to obtain full particulars of the tragedy.

Later.—We learn that a tramp who was prowling about the neighborhood of the Ridings, was suspected and followed. He was caught near Tupelo, and Mr. Riding's watch found in his possession. It was thought Judge Lynch would try him.

The immense Christmas Tree, heretofore announced to come off at Melver Hall, will take place at the Melver Hall, on the evening of the 24th. Extensive preparations are being made, and it will be in point of grandeur and beauty far ahead of any tree ever before exhibited in Okolona. There will also be, several beautiful tableaux presented, in connection with the tree. Every body is cordially invited to send their presents to the Hall early in the afternoon, as a committee will be in the Hall to receive them during the afternoon. Admission—Adults, 25c; Children, 15c.

Come everybody! Remember the money is to be used in repairing the Methodist and Baptist churches in Okolona.

It is a custom with a large proportion of the country press to issue no paper during the Christmas holidays. We have not heretofore adopted it, nor do we do now, with the exception of a precedent to be hereafter followed by the employees of this office, but we beg the indulgence of the readers of the Messenger this once, pleading as an excuse, that we have labored unceasingly for the past year, to have our paper out on time, and to furnish the latest news, and now we all from the editor-in-chief to the printer's devil, (just like other people, strange as it may appear,) want a little rest and recreation. We wish our friends and patrons a Merry Christmas and a Happy New Year, we bid them adieu until January 6th when the Messenger will greet them as of yore.

A difficulty occurred last Friday, on the Houston road, about eleven miles from this place, between a white man named Kelly and some negroes in which Kelly was shot in the thigh and three negroes were also shot—two by Kelly, in the head, and one in the arm, by some one else. One of the negroes, named Garret Keys, shot by Kelly, has died. It seems a Mr. Barrett, who lives on the public road, about where the shooting occurred, went out with Kelly to reconnoitre with the negroes against using profane and obscene language, reminding them that ladies were in the house they were passing. A few words passed, when one of the negroes, said to be Garret Keys, knocked Kelly down, and as he rose shot him, hitting him in the thigh. Kelly drew his pistol and fired at his opponent in the head. Another negro then advanced and fired at Kelly, whom Kelly also shot in the hand. This ended the difficulty, but after the negroes containing the negroes moved off, two more pistol shots were fired by the crowd of excited negroes, and one of their number, Tom Crawford, was shot in the arm. From all we can learn Mr. Kelly acted in self-defense. It is but just to say that one at least of the crowd of negroes was attempting to keep the peace all the time. We refer to Tom Crawford, who has always been the reputation of a good citizen.

The President has appointed Judge Wm. B. Woods of Alabama, Georgia and Ohio—principally from Ohio—to be associate Justice of the Supreme Court of the United States, vice Judge Strong resigned. It is said Stanley Matthews another Ohio man will be appointed to a like position soon. Hurray for Ohio.

Dr. Kodzie, the distinguished chemist of the Michigan Agricultural College, has delivered three lectures this week, at the A. & M. College of this State. He is here by invitation of Gen. Land, who presides over the college, and the citizens of this community, particularly the farmers, for introducing in our midst one so distinguished in science, and who has, by his research, done so much for the agriculturists, as Dr. Kodzie has done. His lectures are very much appreciated by all who heard them and we are sorry that we are unable to produce abstracts of them for our readers.—Star-ville Times.

Synopsis of the Educational Bill

Washington, December 17.—The following is a synopsis of the Educational Bill as passed by the Senate to day. The net proceeds of the sales of the public lands, and of patents, are forever set apart for the education of the people. The Secretary of the Treasury shall appropriate the proceeds to the several States, territories and the District of Columbia, upon the basis of population between the ages of 5 and 20 years, said net proceeds for the previous year, which shall be credited on the books of the Treasury as an Educational Fund, on which four per cent interest per annum is to be paid to the State as above provided; that for the first ten years the appropriation shall be made according to the number of the population ten years old and upward who cannot read and write; and provided further that one third of the income from the said fund shall be annually appropriated to complete the endowment and support of colleges established, or which may be established, under the act of 1862, until the amount annually thus accruing to each said college in each State shall be \$200,000, after which the whole income of the said fund shall be appropriated by the said States, Territories and the District of Columbia, to the education of all children between the ages of 5 and 16. The Secretary of the Treasury is authorized to add to the funds any moneys given to the United States for that purpose. A sum not exceeding 5 per cent of the amount received by any State, territory, or the District of Columbia, may be applied in deduction for the maintenance of schools for the instruction of teachers of common schools. To be entitled to the benefit of this act any State, etc., must maintain for at least three months in each year, a system of free public schools for all children between 6 and sixteen years of age. Any State, etc., misapplying any of the money received under this act shall forfeit further grants until the amount so misapplied shall have been replaced by said State, etc. Nothing contained in the act shall be held to alter any previous law regarding the disposition of public land, nor limit the power of Congress over the public domain, nor interfere with granting bounty land to soldiers and sailors. The bill also authorizes the college established under act of 1862 to establish schools for the technical education of women.

ADMINISTRATOR'S NOTICE. W. H. HARRIS, Executor of the Estate of C. G. BROWN, deceased, hereby gives notice that he has taken and filed with the Chancery Court of the 1st District of Chickasaw County, Mississippi, a true and correct inventory of the estate of said deceased, and is hereby required to render the same, within the time required by law, or he will be held in default.

A FINE OCCUPATION. The approach of the long winter season calls attention to the matter of a lamp, for without a good light half the pleasure or profit is taken from reading or study. Coal oil is now in great demand, and the lamp is the best substitute for wood or gas. The principle of the lamp is so simple that it can be made by any one. The lamp is made of tin, and is so constructed that it will burn for a long time, and is so simple that it can be made by any one. FOUR YEARS OLD. Those who have not tried Trice & Co's four year old Mississippi Whiskey, Key brand, will be disappointed. It is a fine whiskey, and is so simple that it can be made by any one.
